1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear President Trump,

As a Jewish member of Congress, I write to express my deep concern regarding the alarming increase in antisemitic content on major social media platforms in the United States. Following the October 7 attacks on Israel, antisemitic hate and violence have reached record highs in our country. Given the pervasive threats to the Jewish community, I urge you to work with the leadership of major social media companies – including X, TikTok, and Meta – to help put an end to the spread of hate speech on their platforms, and protect Jewish Americans from further hate and violence.

Social media companies have largely failed to take action to combat the rise of antisemitic content on their platforms, and in some cases, have repealed rules and regulations to prevent the spread of hate speech. The widespread failure to respond to antisemitism online has had devastating consequences, as evidenced by the recent terrorist attack against Jews in Boulder, Colorado, as well as the horrific murders of two Israeli Embassy staff members in Washington, D.C. Antisemitic content normalizes and encourages violence and extremism that threatens Jewish Americans and our entire country.

As the President of the United States, you have the power to work with the leadership of major social media companies to confront antisemitic content on their platforms. Stopping the proliferation of hate speech online is one of the most crucial steps that can be taken to combat rampant antisemitism and protect the Jewish community in our country, and I urge you to respond forcefully and responsibly.

Thank you for your time and attention to this critical matter, and I look forward to your swift response.

Sincerely,

Congressman Greg Landsman
